Subject: SB 1693

I understand this bill will reform the way non-controversial distribution investments are treated by the PUC, so that they will be treated in much the same way as investments in transmission investments. As such, it will allow for a more predictable and timely ratemaking process without diminishing the oversight of the process by the PUC. Therefore, I am writing to express my support for SB 1693 by Senator John Carona, which would ensure continued investment in Texas' electric grid.

Thanks for what you are doing for Texas.

Sincerely,
